THURSDAY, JUNE 22, 1905

If we remember correctly history tells us that in 1776, representatives of the American colonies were in session at Philadelphia and that on July 4th of that year these men declared the colonies free and independent of England, because they were opposed to taxation without representation. Since that time the American people have been celebrating that day and have been singing the praises of the men who dared sign the Declaration of Independence. Now, would you believe that this great country would be guilty of doing that which we condemn in England and that today America now holds the Filipinos as unwilling subjects? If it was right for America to be free it is right that the Philippines be free and none questions the right of America to be free.

The perpetuity of our government depends upon the people. If our government is to stand the people will have to take a greater interest in the party primaries.

The trust magnates and others who are rich and break the laws should be allowed to go free but should be dealt with as are the poor, unfortunates criminals.

If the people will take a greater interest in the primaries and precinct meetings there will be less corruption in politics.

Do your part toward making our celebration a success.

Keep the government to the people.

Trustee's Sale.

Whereas, Ada M. Ide, a single person, by her certain deed of trust dated the thirtieth day of March, 1901, and recorded in the office of the recorder of deeds of Monroe county, Missouri, in deed book No. 33, at page 471, conveyed to James M. Johnson, Jr., as trustee, the following described real estate, situated, lying and being in the city of Monroe, county of Monroe and state of Missouri, to-wit: Lots ten (10), eleven (11) and twelve (12) in block nineteen (19) in Petrol's addition to Monroe City, Missouri, according to the recorded plat thereof, and all the improvements upon said lots, in trust, however, to secure the payment of the certain promissory note in said deed of trust described and the interest thereon; and whereas, it is provided by the terms of said deed of trust that should the said first party fail or refuse to pay the said note or the interest thereon, or any part thereof, when the same or any part thereof should become due and payable according to the true tenor, date and effect of said note, then the whole shall become due and payable; and whereas, said promissory note is now long since due and remains unpaid; Now, therefore, notice is hereby given that J. James M. Johnson, Jr., said trustee, by virtue of the provisions in said deed of trust and at the request of the owners and legal holders of said note, will on

THURSDAY, JULY 6TH, 1905, between the hours of nine o'clock a. m. and five o'clock p. m. of that day, at the west front door of the court house in the city of Paris, Monroe county, Missouri, proceed to sell the above described real estate, or so much thereof as may be necessary, at public vendue, to the highest bidder, for cash in hand, to satisfy said deed of trust and the interest thereon and the costs of this sale.

JAMES M. JOHNSON, JR.
June 15, 1905. Trustee.

The people only ask for justice; the tariff barons ask for laws which will enable them to rob the people.

Democracy stands for a government of, for and by the people and not for a government of the favored few.

Every Democrat should sign the primary pledge.

Every Democrat should stand by his color.

CHAS. F. HENDERSON, M. D.
Office over D. K. Yowell Saddlery Co. Calls answered from office day or night. Telephone Buffum 217. X X

The editor of the D-Kalb (Mo.) Tribune devotes three-fourths of a column in the current issue to the question "How Shall We Keep the Boys on the farm?" "Better build a big high fence around it and put the girls in," suggests the St. Joseph News and Press.

10c trial bottles of Liquid Veneer—Wood Bros.

Put a Bull Behind the Bars

We call especial attention to the hinge joint at each intersection of stay with main bars. This is the essential of every good wire fence. Unless the stay has a hinge joint the fence cannot receive pressure from contact and right itself. All rigid stay fences have been unsatisfactory and disappointing, as they crush down and when once down, remain so.

AMERICAN FENCE

Is made with a hinge joint, by which the maximum of elasticity is secured and the fence if properly stretched, remains in place indefinitely. With the hinge joint, no amount of strain on the bars can effect the connection of stay and bar, while the opposite is true of all rigid stay fences.

A. JAEGER, THE LEADER

For Farmers.

EXPERIMENT STATION CROPS.

The crops, corn and cowpeas, on the experiment station are now up and promising some interesting results. The corn strip is composed of 5 plots. Plots 1 and 3 were unfertilized, but plot 1 is to be sowed to cowpeas at the last cultivation of the corn. Plot 2 has 900 lbs. lime; plot 4 has 900 lbs. lime and 90 lbs. bone meal; plot 5 has 900 lbs. lime, 90 lbs. bone meal and 45 lbs. potash. The cowpea strip is fertilized similarly, plots 2, 4 and 5 having lime, lime and bone meal, and lime, bone meal and potash, respectively.

Owing to the dry weather, the only fertilizer that has showed very visible results, is the potash (that being very soluble). But now that we have had good, soaking rains, we may expect some very interesting developments.

The cowpeas were inoculated with the nodule-forming bacteria before sowing. A small strip in the first plot on the north side was sowed with uninoculated seed to test the efficiency of inoculation.

The peas are up, but will not be large enough for a week or so to show very marked results of the fertilizer or the inoculation.

A small area will be sowed to alfalfa this fall and it is to be hoped that it will not prove a failure. Perhaps we can find some method of raising this most valuable crop on our soil. It will be plowed so as to afford good surface drainage.

Don't forget to watch these experiments all through. It is time now to begin visiting the "Station" and become personally acquainted with every stage of growth and development.

Monroe City, Mo., June 20, '05. Editor DEMOCRAT: Here are a few lines of information about the "Exp. Station" crops etc.

The corn is looking well on all of it, but the potash plot is in the lead at present. I don't know how the race will turn out, since we have had enough rain to dissolve other fertilizer.

My brother Marion, at Rensseler, used a fertilizer attachment on his plants and dropped bone meal and potash on the hills of most of his corn. You can see to the row where he stopped using it. The fertilized corn is half as good again. He planted earlier than the experiment corn was planted—when there was more moisture to dissolve the fertilizers—hence the more visible results. Please urge your readers to watch their experiments. Several neighbors have visited the grounds, but results ought to show up rapidly

ly now, and we should all try to get all the benefit there is to be got out of them. Knowledge first-hand is best.

Respy.
BYRON MCFARLAND.

Over A Million Dollars.

The official statements of the ten State banks and one national bank of Monroe County show a deposit of \$1,051,527.06 at the close of business on May 20th. Certainly Monroe County is in good shape financially if the amount of money on deposit in the banks is any indication. The Farmers & Merchants Bank of Monroe City has reason to be proud of the fact that of the State banks it has the largest amount on deposit, \$160,811.16. This shows that it has the confidence of the people which it certainly deserves, because it is so ably and conservatively managed.

BIGGEST EVER!

IS THE

Reduction Sale

At J. B. ANDERSON'S
Continues Until July 10, 1905

Big Fake.

Of all the fakes ever, the big petroleum story in Tuesdays Globe-Democrat, was it.

In the first place Monroe County does not extend one foot, to say nothing of fifteen miles northwest of here. The place—Emden—has never, and boring five years ago prove it, and never will produce, an ounce of petroleum to say nothing of a large supply of the worlds product.

The attempt to find oil there five years ago proved an abortion, except to draw money from suckers.

Those Lectures.

The lectures given on last Wednesday, Thursday and Friday evenings by Miss Bertha Bowers at the M. E. Church were well worth hearing by even the most highly educated people. She appeals not only to the heart but to the intellect as well, basing all she says on facts too well proven to admit a doubt. She gained the confidence of all who heard her and we are sure will make friends for the cause she represents wherever she goes.

James Ralls of Nevo, Ill., is visiting his friend F. S. Saunders.

Some Special Premiums.

Below we give a few of the premiums which will be given July 4th.

Bicycle race by boys under 14—6 entries, 1/4 mile dash—22 calibre rifle by A. Jaeger.

Bicycle race—over 14 years—5 entries, 1/4 mile dash—\$1.50 hat by H. Levy.

Tallest man will receive 1 pound of candy from G. R. Wilson.

The neatest dressed lady will receive a \$2.50 hand bag donated by W. B. Spalding.

Prettiest girl baby under 1 year, pair of shoes donated by A. Boulware & Son.

Smallest man 21 years or over will win a fancy vest pattern from P. Werner, and hair cut and shave from J. W. Streat.

Ugliest man, 500 pounds of ice donated by J. W. Stephens.

The largest man can get a free hair cut and shave at F. P. Christians.

Youngest married couple keeping house will receive 1/2 dozen brooms from E. W. Campbell.

J. F. Crawford, umbrella to oldest married couple.

D. K. Yowell Saddlery Co., \$1 raw hide buggy whip to farmer driving the longest distance to attend the celebration.

R. M. Walker, a good 3 blade pocket knife to winner in fat mans race—over 200 pounds.

R. Leake desires to shave and cut the hair of the ugliest man.

W. A. Sullivan will give a \$2 pair of pants to longest legged man on the grounds.

L. C. & H. Cunningham, \$1 worth of coffee to laziest man.

Rogers & Thompson, \$2 hat to oldest man on the grounds, and \$2 worth of dry goods to woman having largest family of children with her.

Potato race for boys under 14 years, \$8.50 in 3 monies, and others to be announced later.

Entertained.

Paul Cox and Miss Grace Sharp entertained some twenty-five of their friends Tuesday evening at the home of the former. During the evening ices were served.

Walter Williamson and family returned yesterday morning from a visit to Tulsa, I. T. Walter thought there was too much water there for even a Baptist. He visited several points and met with several former Monroites.

Walter Williams History of Missouri should be in every public school.

You will make no mistake in celebrating the 4th in Monroe City. Come and tell your friends to meet you here.
